Cindy;

Steve Allgeier from our Water Security Division Office of Ground Water and Drinking Water in Cincinnati had helped me put together a summary of the Formaldehyde issues.

I thought I would send it to you for any comment or review within your lab. Any recommendations are welcomed. Please feel free to share it within your office but I am considering it as deliberative at this point.

The second document is just an FYI – a compilation of information on formaldehyde from EPA/CDC and other sources
